Claims 1-18 are finally rejected as set forth in the Office Action dated 04/13/04.

Applicant's arguments filed 06/02/04 have been fully considered but they are not persuasive.

In response to applicant's argument that it is unobvious to provide the basket of Zabriskie with a handle of Perkins and it is improper hindsight reasoning to make such reconstruction, it should be noted a basket without a handle would have created problem and inconvenience of carrying and handling the basket, a basket with a handle is old as evidenced by Perkins et al. The mere inventive concept of attaching an old handle to an old dishwasher basket is well within the purview of one skilled in the art and is not seen of any patentable significance. The references to Perkins et al, Crawford and Allison overwhelmingly show the concept of attaching a handle to a container and such expressed teaching would have motivated one having ordinary skill in the art to place any well known handle to a basket without handle in order to enhance the carrying and handling process. As long as there is a reasonable suggestion and reason to combine the references together, that will satisfy the obviousness.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire **THREE MONTHS** from the date of this action. In the event a first response is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
